

## Company Overview

### Trust the experts

Kroll Ontrack provides technology-driven services and software to help legal, corporate and government entities search, analyse, produce and present data efficiently and cost-effectively. In addition to its award winning suite of software, Kroll Ontrack provides paper and electronic disclosure, computer forensics, courtroom services and data recovery. Kroll Ontrack is the technology services division of Kroll Inc., the global risk consulting company.

#### Locations

With its European head office based in London, Kroll Ontrack operates in over 30 offices in 24 countries around the world. With more than 2,000 employees worldwide dedicated to assisting clients, Kroll Ontrack can offer a truly global service.

#### Services and Software

Kroll Ontrack provides cutting-edge technology and consulting services through Legal Technologies and Data Recovery Services.

#### Legal Technologies

The Legal technologies division of Kroll Ontrack provides corporations, law firms and government agencies with technology and consulting services for paper and electronic disclosure, computer forensics and investigations. Helping clients quickly and cost effectively find, review, manage, produce and present relevant evidence, Kroll Ontrack is recognised as the leading electronic disclosure provider by Am Law Tech Survey (2002-2008).

# Company Overview

## Legal Technologies and Software Disclosure Services

Kroll Ontrack provides the best disclosure solutions for your needs. We specialise in cost-effective and efficient disclosure management, from proven onsite data collection methods to innovative technology and strategic advice, Kroll Ontrack will support you at every step of the disclosure process.

## Computer Forensics Services

Kroll Ontrack can provide the support your business needs to help reduce the risk associated with operating in an electronic environment. Our team of forensic experts and suite of services provide you with powerful tools to prepare for and respond to any electronic evidence requirement.

## Online Document Review

Ontrack® Inview™ is an award winning review tool that gives Kroll Ontrack's clients the power to perform online document review in a secure database repository uniquely dedicated to their case. This online review tool maximises efficiency in the review process by combining proven document review features. With advanced review technologies such as e-mail threading and near-duplication capabilities, Ontrack Inview places more control of the disclosure process in the hands of the legal team.

## Early Case Assessment

Ontrack® Advanceview™ is an early case assessment tool that helps legal teams streamline e-disclosure by providing early visibility into case data before processing and review begins. Utilising leading-edge search and advanced visualisation capabilities, users can reduce large data sets into smaller, more relevant sets of documents before incurring processing and review costs.

## Courtroom Services

Kroll Ontrack provides a comprehensive range of integrated courtroom services ranging from consultancy and training, to the implementation of complex technical infrastructures. These services are supported by skilled teams of legal consultants, project managers and technical experts who have significant experience in supporting legal professionals with varying legal or technical needs.

## Data Recovery Services

Kroll Ontrack is the largest, most experienced and technologically advanced provider of data recovery solutions worldwide. Using its hundreds of proprietary tools and techniques, Ontrack Data Recovery helps businesses and consumers recover lost or corrupted data from all types of operating systems and media and storage devices through do-it-yourself, remote and in-lab capabilities.

## Unmatched Industry Expertise and Experience

- More than 10 years experience in the electronic evidence market
- Over 20 years in the data recovery industry
- Over 30 offices located across the globe
- Award winning proprietary software
- Many experts considered thought leaders in the industry
